  - (i) market analysis and assessment
  - (ii) health status (incidence and prevalence of disease and injury)
  - (iii) external/environmental analysis.
  - (iv) policy analysis and papers based on the above
  - (v) programs to encourage private sector development incentives to "compete for medical care"
  - (vi) coordination of donor and non-government organization (NGO's) efforts within Belize's health sector
- (b) regulation, monitoring and inspection
- (c) technical assistance to districts and program
- (d) human resources palnning and management
- (e) data and management information systems

### I. OBJECTIVE

- (a) to preserve as nearly as possible, the originally designed condition of paved and unpaved roadways and of traffic signs, signals and markings in a manner most likely to minimize the total cost to society of vehicle operation and accident cost, plus the cost of providing the maintenance itself under the constraints of severe resource limitations.
- (b) to carry our repairs and maintenance of all bridges and related appurtenances in a manner most likely to minimize cost to society of vehicle operation and accident cost as well as allow accessibility to road users.
