Consultancy Services (CTCS)**

BELIZE PROCUREMENT WEEK November 4th – 8th 2024

5

What is CJET

CDB through its Caribbean Technological Consultancy Services Network (CTCS) developed the "Computerised Job Estimation Tool (CJET)"

- ☐ a simple but practical tool to help small contractors to cost their bids.
- ☐ designed primarily for Works contracts
- ☐ flexible enough to be used for other project based work

BELIZE PROCUREMENT WEEK November 4th – 8th 2024

6

Format (Structure)

CJET is an application running in Excel. This framework was chosen because it was felt that the target audience would have familiarity with Excel either personally or have staff who are proficient.

Using a familiar interface eliminates the need to learn new functionality and as a result users can focus on the inputs and consequent results.

BELIZE PROCUREMENT WEEK November 4th – 8th 2024

7

Format (Structure) Cont'd

A CJET estimate consists of several Excel workbooks operating in concert to produce the final result. It is divided into three broad sections

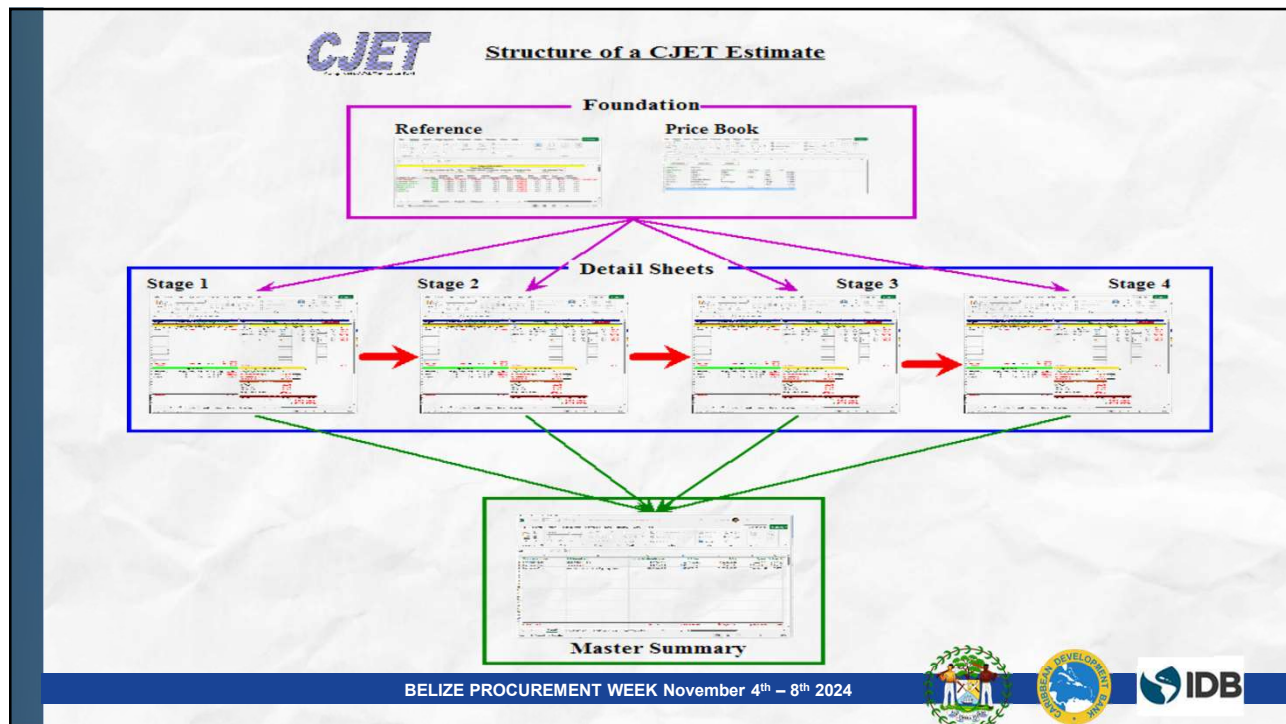

1. Foundation
2. Details
3. Summary
